

Rear / dorsal D-ring Chest anchoring

Harness ARG 31 Skyfizz Lifter Click Skylotec

Product information

Advanced harness with robust and elastic chest and back anchoring, individually adjustable anchoring points. The comfortable back padding makes it easy to put on the harness, distributes the load evenly and is breathable. The crossed harness straps are sewn on to the back padding and distribute the load perfectly. Due to quick locks, it is easier to put on and handling the harness. The double-coated and firmly sewn belt ends prevent the harness from slipping. Good for long term use for example when working with skylifts, service or maintenance thanks to its high comfort. Approved for weights up to 140 kg independent of the size. Can be specially ordered in sizes XXL-XXXXL.

Can be hand washed up to 40°C.

Anchoring: Back and chest.

Max service life: 6-8 Years

Material: Polyester, Steel

Marking: According to standard, CE-marked, Supplier symbol, product id, size/length, production date, reference no, serial no.

Temperature range: -35°C up to 45°C.

Standard: EN 361
