Fall Arrest Bag POWERTEX FAB-30

Product information

Organize and store your fall protection gear with the POWERTEX Fall Arrest Bag, a robust and practical solution designed to securely store harnesses, lanyards, fall-arrest blocks, ropes and accessories.
Designed with simplicity and convenience in mind, this bag is an essential addition to your safety equipment.

Product features:

- Durable construction: Made from high-quality polyester and water repellent so that your gear stays dry and protected in various conditions.
- 30L Storage capacity: With dimensions of 47 cm in height and a diameter of 28 cm, this bag offers a generous 30-liter capacity, providing ample space for all your fall protection equipment.
- Easy closure: The top of the bag features a cord with a plastic stopper, allowing for quick and secure closure, keeping your gear safely contained.
- Carrying handles: Equipped with a shoulder strap, the bag is easy to carry, making transportation of your equipment hassle-free.
- Reinforced bottom: The sturdy and reinforced bottom ensures the bag maintains its shape and provides additional protection for your gear.
- Name plate pouch: Includes a transparent pouch for a name plate (L 100 x H 7.5 cm), allowing for easy identification and organization of your equipment.
- Hand washing: The bag can be hand washed up to +40°C with mild detergent, ensuring it remains clean and hygienic.
