

Harness ASTRO BOD FAST Petzl

Product information

Ultra-comfortable rope access harness.

With an integrated CROLL L ventral rope clamp, the ASTRO BOD FAST harness is designed for greater efficiency and comfort during rope ascents.

The gated ventral attachment point allows optimal integration of equipment (rope clamp, lanyard, seat...). Wide, semi-rigid waistbelt and leg loops give excellent support. They are contoured and lined with breathable foam padding for comfort when suspended.

The DOUBLEBACK self-locking buckles at the rear of the harness, between the waistbelt and the leg loops, allow for a shorter adjustment when the dorsal attachment point is used.

The harness also facilitates the carrying and organizing of work tools, with multiple equipment loops and retainers for attaching CARITool tool holders and TOOLBAG tool-holder pouches.

Attachment points:

- Ventral attachment point: for a descender, a positioning lanyard for use in single mode, a progression lanyard, and a seat
- Lateral attachment points: for a positioning lanyard for use in double mode
- Sternal attachment point: Fall-arrest system attachment
- Dorsal attachment point: Fall-arrest system attachment
- Rear attachment point on the waistbelt: Restraint lanyard attachment

Material: Nylon, polyester, aluminum, steel.

Marking: According to standard, CE-marked

Temperature range: -40°C up to 80°C

Standard: EN 358, EN 361, EN 813
