

Lifting Belt

Product information

Design: A number of galvanized steel wire ropes are "weaved" together with the help of PVC-blocks to desired width and WLL. As a standard there is a soft eye or a shackle clamp in each end. Other endfittings, widths and working load limits on request.

Rope construction: 6 mm 6x19M-FC, 8-20 mm 6x36WS-FC 1960 N/mm²
