SKN BFD SK11 Skylotec

Product information

SKN BFD SK11 is a guided-type fall arrester with a compact energy absorber that makes it suitable for universal application in numerous areas. It has been tested for user weights up to 140 kilograms and is used primarily for vertical ascents on 11-mm ropes. Horizontal work on building edges is also possible, as it has been edge tested in accordance with RFU CNB/P/11.075 - Rev. 2.
