Tarpaulins

Product information

These presenningar are flexible protective covers designed for temporary or semi-permanent protection of materials, equipment, and surfaces. They are used to shield against weather exposure, dirt, and handling conditions in transport, construction, and storage environments. Available in both light and heavy-duty variants depending on durability requirements.

Design:

- Light Tarps: "One Way", 2 pcs/bag.
- Heavy Tarps: UV, mildew and rot resistant. Eyelets 1 m C/C. PP-rope, -30°C - +70°C.

Best for:

- Covering goods during transport or outdoor storage
- Protecting equipment from moisture, dirt, and UV exposure
