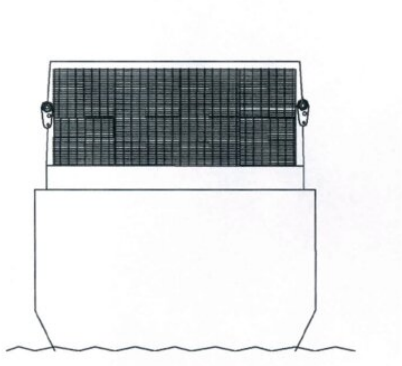
Lashing

Product information

CERTEX supplies lashing for timber packages on deck, both webbing and chain lashings.



Alternative 1 = the best tension.
We can customize lashings to your specifications, web lashing or chain lashing.
We need following dimensions :

1) Distance from deck fitting to top of hatch cover.
2) Max height of load.
3) Width of hatch cover.

You may also need in between lashings, depending on number of layers of timber packages on deck.
