

Lashing

Product information

CERTEX supplies lashing for timber packages on deck, both webbing and chain lashings.

Alternative 1 = the best tension.

We can customize lashings to your specifications, web lashing or chain lashing.

We need following dimensions :

- 1) Distance from deck fitting to top of hatch cover.
- 2) Max height of load.
- 3) Width of hatch cover.

You may also need in between lashings, depending on number of layers of timber packages on deck.

Note: Please contact your Certex Marine office for more information.
