

Ferrule INOX Talurit®

Product information

These ferrules are normally used on stainless steel wire ropes to achieve the best possible resistance against corrosion.

Stainless steel Ferrule - recommended for machine pressing only. Suitable for long term use in salt water, waste water treatment and chemical processing

[... Read more](#)

Material: Stainless steel, AISI 316.

Note: See the manufacturer's product data sheet below for guidance on dimension selection. We do not guarantee strength of slings for lifting activities made of INOX ferrules. A termination performed according to our instructions will normally withstand a tensile strength of 90% of the minimum-breaking load (MBL) of the wire rope. Verifying tests must be done in order to find out the strength.
